Leírás

Standards : DVB, PCMCIA

Upgraded by MPEG STREAM (for security reasons PC upgrades are not possible). The upgrade is available 24H/day 365Day/Year on Astra 12603H SR : 22000.

Compatible with : viaccess 1+2

The last production of Viaccess module is on version 2.15. This version is 100% the same as the V2.03 in the stream except for a very small modification corresponding to a small change in the hardware. User Viaccess module 2.03 DOES NOT need to be upgraded to version 2.15 ! 2.15 version is NOT available on satellite or on Mpeg Stream.
